SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

This has been an exciting and fast-paced year at Jefferson Elementary School. We have continued the ongoing tradition of providing a child-centered environment that challenges and nurtures our students. Not only do we hold high expectations for academic achievement, we continue to stress the qualities of good citizenship. Our ultimate goal is for the students of Jefferson to become productive members of our global society.

This year has been very challenging as well as extremely rewarding. Our third year with the South Carolina Reading Initiative (SCRI) has continued to change our philosophies and instructional methods in literacy. Focused study has allowed staff to establish beliefs and work toward common goals. We have seen tremendous growth in our students and are confident that as we grow as teachers, our students will continue to improve.

Students participated in numerous service activities such as Pennies for PATH, Jump Rope for Heart, and Relay for Life. Students were involved in other experiences such as choral programs, Culture Fest, and a recycling project. Opportunities in leadership were provided through participation in student council.

Parent and community involvement in the school were encouraged in many ways. A Lunch Buddies program brought in community members to spend time with students and provide an adult role model. District Office staff also worked with students during the year on academics as well as providing positive role models. Parents were invited to participate in events such as book fairs, reading with students, a living wax museum, as well as graduation and awards ceremonies. The community as a whole is dedicated to our students.

We continue to expand our use of technology in the classroom. This year we were able to add interactive white boards in twelve classrooms. In the near future, we hope to add more. Teachers continue to integrate technology into the classroom as often as possible.

For the 2009-2010 year, we will continue about the business of educating our children. Our goal is to increase the percentage of students meeting target growth on MAP, continue to improve reading instruction, as well as provide a quality education for the customers we serve. We strive to reinforce our learning community as we continue "Linking Learning to Life."
